

# MICHAŁ DRABIŃSKI

Senior Front End Developer

+48 661 691 171    mpdrabinski@gmail.com    Warsaw, Poland

## SUMMARY

Experienced front-end developer with 14 years of expertise, specializing in Angular. I design and develop modern, efficient, and scalable web applications, ensuring high code quality and an intuitive user experience. With extensive experience in large-scale projects, performance optimization, and best coding practices, I am committed to continuous learning and seeking innovative solutions.

## EXPERIENCE

Senior Front End Developer

EG

01/2020 - Present    Warsaw, Poland

- Software design, implementation and testing
- Collaborate with backend teams to improve API efficiency, reducing front-end request payloads and improving app responsiveness

Technical University of Łódź

01/2008 - 01/2015    Łódź, Poland

- Faculty of Electrical, Electronic, Computer and Control Engineering
- field of study: computer science
- major: enterprise computer networks

## SKILLS

Angular	Typescript	RxJS	NgRx
Nx	AngularJS	JavaScript	HTML5
CSS	Git	PHP	MySQL
	Jira		

## LANGUAGES

Polish Native	●	●	●	●	●
English Proficient	●	●	●	●	●

## KEY ACHIEVEMENTS

- Developed and optimized high-performance Angular applications for large-scale projects.
- Optimized application performance, reducing initial load times and improving Core Web Vitals.
- Successfully migrated legacy applications from older frameworks to modern Angular versions.
- Mentored junior developers, conducting code reviews and knowledge-sharing sessions to enhance team skills.

## INTERESTS

- UI/UX Design Trends – Keeping up with the latest in web design, accessibility (a11y), and usability
- AI & Front-End Automation – Interested in how AI can enhance front-end workflows, testing, and development.
